

Environment Policy

It is the policy of the Company to control activities in order to protect the environment through the use of an Environment Management System based on BS7750 and ISO14001. Our respect for the environment makes the business more efficient and enhances the Company's reputation.

This policy is pursued in several ways:

- Identification, Management and Mitigation of environmental risks in our operations and activities;
- Maintaining 100% compliance with regulations
- Supporting the environmental aims of local government through the prevention of pollution.
- Reduce our impact on the environment through control of our activities, including:
 - Reduction of electricity, fuel and water consumption;
 - Reduction, reuse and recycling of waste generated;
 - Assessing environmental issues as part of the selection of suppliers.
- Raise awareness of environmental issues through the communication of this Environment Policy, both within and outside the Company;

The Environmental Management System will be monitored, measured and reviewed regularly as part of our commitment to continual improvement.

This Environmental Policy is communicated throughout the Company, and is made available publicly via the Company website.

This Environmental Policy has the full support and commitment of the senior Management of the Company, as evidenced by the signature below.
